

Photo Restrictions:

School Website / School Facebook

Periodically we will take pictures of students to use on our school website or on our school Facebook page. Because these are viewable by the public, **I am asking parents if they do NOT want to have their students in these photos.** Taking pictures are a great way to “see” the school from their eyes and also to promote all the positives in our school. However, I will honor your request if you do not want them posted. On all posts, I do not include names.

I do NOT want my student featured in any photos posted on the school website or Facebook page.

Student Name: _____ Grade: _____ Teacher: _____

Parent Name: _____ (printed) Signed: _____ Date: _____

***Please check the box, complete and return with your student if you do NOT want your student’s picture used on our school website or Facebook page.**
